

**FOR PATIENT ELOPEMENT /
FALL PROTECTION:**

Elopement happens when a patient or resident who is cognitively, physically, mentally, emotionally, and/or chemically impaired; wanders away, walks away, runs away, escapes, or otherwise leaves a caregiving facility or environment unsupervised, unnoticed, and/or prior to their scheduled discharge. Patient or resident elopement is a dangerous and sometimes deadly situation.

Hi-Tech Communications offers solutions that are customizable, developed to complement the unique policies and procedures each hospital employs.
